

Criterion F: Feedback from client

Question		Comments	Yes/No
1	What content would you want me to keep the same and make no adjustments to from the website?	The welcome pages and services pages are very clean and should be kept the same.	
2	What are the weaknesses of the website or what you would like me to further develop or extend?	Automatic granting of Google Services permission, improved aesthetics of admin page, add the ability to delete accounts on the admin page.	
3	Is there anything on the website that you'd like me to remove?		No
4	Had the product been delivered on time?	Earlier than expected.	Yes
5	Are you happy with how the layout of the website ended up looking?	It looks really good. The welcome page is a very clean format. The resource links all lead to google services.	Yes
6	<p>Have the specific performance criteria been sufficed?</p> <ul style="list-style-type: none"> There will be a page titled "TROOP 1453 SERVICES" that has hyperlinks to Google Services such as Google Drive, Google Docs, Google Sheets, Google Forms There will be a page titled "TROOP 1453 HOME" that has a messaging form and brief information about the troop Forms are able to detect invalid input Forms can send inputted data to the client The solution can be used long-term, without much maintenance The website is structurally consistent, across pages and multiple browsers. Google Services hyperlinks cannot be accessed without being a member. The database must be secure against unauthorized access, as there are privacy concerns over the hyperlinks that would have access to images/data. (Having a user-login system) When a new user is created, they cannot log in without being verified by the user, and a new field is added to the admin page with the user and a checkbox to be verified Admin can successfully verify a user and the user can successfully access the webpage after. The webpage can be used cross-platform, on pc, laptop, mobile devices. The website adapts to different screen/window sizes. 		Yes

7	Are you happy with my services to the point you would consider using them in the future?	If the troop recharter successfully, it will be deployed and utilized full-time.	Yes
